As amadas e amados

"Whoever is of God hears
the words of God..."

John8:47

Teresa Rute Chambanguana came to House of Ants in 2017 aged 5years.

Her parents separated and left Teresa in the care of her grandparents and give no help or support.

Rute is now 6 years old and attends primary school, also a Bible class for her age group. She is in good health, and enjoys her daily visit to House of Ants.

Francisco Sandra Costa came to House of Ants in 2018 aged 5 years. His father abandoned him and his mother, who then returned to her parents with Francisco. For very little his mother does housework for a family. The father gives no support to them. Francisco comes daily to House of Ants receiving lunch and primary education. He also attends the Bible teaching adapted to his age group. He is friendly boy with a helpful disposition.

This is Elina Daniel Tembe who came to House of Ants in 2014 age 8 years. In August 2017 she became seriously ill and spent one month in hospital and was diagnosed with subdural empyema which left her with speech difficulties. Her father has no work and the mother works for a family earning little money. The family is very poor and Elina has fainted on various occasions partly due to her condition but also due to hunger. In view of this, House of Ants Administration decided to provide a weekly food hamper to help this family.

This José Monjane who started coming to the House of Ants in 2017 at age 11 years. Orphaned from both parents he lives with his grandparents who are also very poor. José is a friendly boy and at 12 years old he is already training to be a tailer at house of ans. He is also keenly involved in the Bible classes. The grandfather suffers ill health and tries to grow a few crops but receives no financial support.

The Children of House of Ants say "Obrigado"

*Your prayers and support for these dear children are highly valued.
Please remember them in your prayers*
