

# PROCLAIMING CREATION

## IN A SCIENTIFIC AGE

With today's scientific advances, people often swallow the mantra that 'science has proved the Bible wrong'—that evolution is a fact and that the Bible's account of origins is plain wrong.

Creation Ministries will be challenging this view with our talks that address commonly asked questions, such as: *What happened to the dinosaurs? What about the Big Bang? What about carbon dating? Surely Noah and the Ark aren't historical? Why could God not have used evolution? Why is there death and suffering? And many more!*
