

The Genesis Flood and the Ark

Tuesday 27th June, 7.30pm

Have you ever been challenged to explain that such events even took place?

Don't miss this unique opportunity to hear from 'Ark Man', Rod Walsh, as he draws from his ten year feasibility study, on exactly how plausible the biblical Ark was! Demonstrating with a scale model Ark, Rod communicates in clear and descriptive terms how it may have been built.

An extensive range of creation resources will be available at all meetings.

This is a great outreach opportunity so remember to bring your friends!
