

July 2024 Internship Report

Dear brethren,

It is joyful to experience God's mercies that are new every morning. Trusting that He is faithful to preserve us until the day of Christ.

Support

I bless God in the gracious work of charity through Kamketo TBC, who have become of great help in my theological studies. Since this year March till July's classes, they have kept supporting me, I am so much thankful.

Trinity Pastors College

We had a fruitful time together with two lecturers, Murungi Igweta who introduced for us the letters of Paul, he managed to explain to us the central points of three books (Romans and 1&2 Corinthians), and promised to continue with the remaining during other lecture. Jon English Lee as well was there to lecture The Church History to 1000 A.D., Currently we are working on this interesting history of the early church, after which we shall do the 3 Epistles.

In addition, we were thankful for TBC Nairobi for giving a room the theological students to study more and to know God more – by allowing [Covenant Baptist Theological Seminary \(CBTS\)](#) students, to meet physically under Jon English Lee and get focused for *Masters in Divinity*.

Kitale Ministry

We thank God for the mercies in sustaining us (the church) and still being our refuge and comforter. Teka and I were able to preach to several people in the streets during evangelism, and though some of them were drunkards, a good number of them seemed to have been convicted of their sins.

Ministry in Embrace (children home) is also encouraging due to the fact that many children are getting helped in growing and knowing the Person of Christ and his work for sinners.

Kasei Women Retreat

Pastor Lokerisa and I had a conversation and he talked about having upcoming women retreat at Kasei (date 21-24 August). He also encouraged me to prepare one lesson and leading in devotions. He promised to send me the topic to prepare.

Prayers

1. *Thank God for our previous TPC classes and grace in assignments.*
2. *That salvation of souls we evangelized.*
3. *Remember churches in Pokot as they continue to prepare for women retreat.*
4. *I am also not feeling well, diagnosed with infection in the kidney. I am in Nairobi for further checkup and treatment. Pray for healing, provision for treatment and grace.*

In Christ,
Geoffrey Muketi
